MiamiSexualHealth.com

Hello and Welcome to our Practice

The Center for Women's Sexual Health and Medicine is a Gynecology only medical practice with a focus on female sexual health and gynecologic care. We are committed to promoting women's health and wellness and providing quality care in a supportive, compassionate, and caring manner. We offer evidence-based medical diagnosis, medical treatments, and surgical treatments with the understanding that each woman is unique and individual in her healthcare needs.

We are located at Mount Sinai Medical Center in Miami Beach, Florida. The office is modern and state-of-the-art with a fully integrated electronic medical record system, electronic prescribing, and a patient portal which allows patients to view results and communicate with the office directly. We encourage you to register for our patient portal to do this.

Telemedicine visits are also available to schedule at any time with the doctor. In addition, we have many resources including educational pamphlets, product information, and samples available to share with our patients. We welcome and encourage our patients to ask questions and be fully engaged in the health care process.

Our office staff is accessible, friendly, and efficient. We make every effort to address all your health care needs in a considerate, respectful, and timely manner. We are a multicultural and multilingual office (English, Italian, Portuguese, Spanish, and Ukrainian spoken).

Due to the current COVID19 pandemic we ask that you do not bring any papers, forms or medical records to the office but that you email them to us prior to your visit.

To expedite your visit we ask that you read and complete the following New Patient forms PRIOR to the appointment date and email them to our office: crdieppa@femwell.com

Patient Registration
Notice of Privacy
Financial Policy
Medical History
Family History Screener
Review of Systems
COVID19 Screening Questionnaire
Examination/Pelvic Examination Consent
Telemedicine Consent

We Look forward to seeing you !

Sincerely,
Crystal Dieppa,
Practice Administrator
